

RBI: Over 80 participants attend RBI Investor Day in London

Vienna/London, 15 March 2018. Raiffeisen Bank International AG (RBI) held a presentation today in London for institutional investors and analysts from the world's major financial centers. The event has taken place on the day following publication of the full year results for eight years. This year it was again met with a great deal of interest among the more than 80 participants. Johann Strobl, RBI's Chief Executive Officer, delivered a positive assessment of the last financial year: "Consolidated profit of EUR 1,116 million was more than double the level of the prior year. We will therefore propose payment of a dividend of EUR 0.62 per share to the Annual General Meeting."

Following the report on strategic developments, CFO Martin Grüll elaborated on RBI's results in detail. Hannes Mösenbacher, who has been the Board member responsible for risk management since March 2017, also highlighted the exceptionally low risk costs, which made a significant contribution to the good results.

In the subsequent discussion session, RBI's management addressed further questions from the attending equity and debt investors, equity and credit research analysts as well as rating analysts. At the end of the event, the Management Board was available for bilateral discussions.

Currently, 24 equity analysts and 19 credit research analysts provide investment recommendations on RBI. This makes RBI the Austrian company with the largest number of research houses regularly reporting on it.

The entire event can be viewed as a webcast on the RBI website from 5 p.m. (CET) at www.rbinternational.com → Investor Relations → Events.
