| | <u>44,527,000</u> | <u>44,527,000</u> |

The Company's long-term loan receivable consist of a EUR44,527,000 (2012: EUR44,527,000), Undated Securitised Commercial Certificates of Obligation issued by a related party, Raiffeisen Bank International AG ('RBI') and subscribed in full by the Company on issuance at par.

The certificate may be redeemed at the option of the borrower on an interest payment date on or after 31 July 2013 at par, adjusted for any impairment losses, in accordance with the conditions of issuance of the securitised commercial certificate of obligation. The claim of the Company shall be subordinated in accordance with Section 45 (4) of the Austrian Banking Act.

Interest is receivable from (and including) 31 July 2003 to (but excluding) 31 July 2013, annually in arrears on 31 July, in each year commencing on 31 July 2004, at a fixed rate per annum of 5.945%, and from (and including) 31 July 2013 at a rate of 2.75% per annum above the euro-zone interbank offered rate for three-month euro deposits (EURIBOR) payable quarterly in arrears on 31 October, 31 January, 30 April and 31 July in each year, commencing on 31 October 2013.

On 22 November 2012 the Company entered into a Purchase and Cancellation Agreement with RBI, the agreement resulted in the purchase and cancellation of EUR55,473,000 Perpetual Non-cumulative Subordinated Floating Rate Preferred Securities (see note 8) from RBI at the notional amount plus any accrued interest. The consideration for the purchase was settled by way of discharge of Securitised commercial certificates issued by RBI and held by the Company with the notional amount of EUR55,473,000, resulting in no gain or loss from the transaction. The acquisition and discharge became effective on 28 November 2012. Interest accrued up to the date of the discharge was paid to the Company. This transaction constitutes a non-cash transaction as agreed between the respective parties.

RZB Finance (Jersey) II Limited

Notes to the financial statements

For the period ended 30 June 2013

8 Perpetual preferred securities (continued)

Holders of perpetual non-cumulative preferred securities receive interest which will be payable from (and including) 31 July 2003 to (but excluding) 31 July 2013, annually in arrears on 31 July, in each year commencing on 31 July 2004, at a fixed rate per annum of 5.895%, and from (and including) 31 July 2013 at a rate of 2.70% per annum above the Euro-zone interbank offered rate for three-month Euro deposits (EURIBOR) payable in arrears on 31 October, 31 January, 30 April and 31 July in each year, commencing on 31 October 2013. The preferred securities do not carry the right to vote unless the interest is in arrears.

The interest is non-discretionary and payment thereof is subject to the conditions included in Clause (a) of the Offering Circular. During 2012, the Company opted to repurchase the perpetual preferred securities and duly cancel the long-term loan receivable as a result of the intermediate parent's strategy to reduce its risk exposure given the current weak economic conditions.

The preferred securities are redeemable at the option of the Company, subject to law and to the prior consent of RBI which shall grant such consent only after either replacement of the principal amount of the preferred securities so redeemed by the issue of other capital of at least equivalent quality or having applied for and been granted consent by the Austrian Financial Market Supervisory Authority (the 'Finanzmarktaufsichtsbehörde' or 'FMA'), in whole but not in part, at EUR100 per preferred security plus accrued and unpaid interest for the then current interest period on 31 July 2013 or any interest date falling thereafter and, subject as described in the "Description of the Preferred Securities".

On 23 February 2012, RBI invited the holders of perpetual non-cumulative preferred securities with a denomination of EUR100 each, issued by the Company, to tender the preferred securities to RBI for purchase at a fixed purchase price plus any accrued and unpaid dividends. On 8 March 2012, it was announced that RBI had received acceptances from note holders of 553,734 preferred securities. In addition RBI purchased 996 preferred securities in the market. On 22 November 2012 the Company entered into a Purchase and Cancellation Agreement with RBI. It was agreed by the directors, that the Company would cancel the preferred securities on receipt of the preferred securities purchased by RBI. In exchange for the return of the certificates the Company agreed to discharge the obligation of RBI relating to the Securitised commercial certificates for the notional amount of EUR55,473,000, resulting in no gain or loss from the transaction. The transaction for the cancellation of the above securities was settled on 28 November 2012. Interest accrued on the purchased preferred securities up to the date of the cancellation was paid to RBI on the settlement date for the amount of EUR1,072,175. This transaction constitutes a non-cash transaction as agreed between the respective parties.

In the event of any voluntary or involuntary liquidation, dissolution or winding-up of the Company, the holders of the preferred securities will be entitled to receive for each preferred security a liquidation preference of EUR100 plus accrued and unpaid dividends for the then current dividend period to the date of payment. Such entitlement will arise before any distribution of assets is made to holders of ordinary shares, preference shares or preferred securities or any other class of shares of the Company or any other share or other security issued by the Company and having the benefit of a guarantee from RBI ranking junior as regards participation in assets

to the preferred securities, but such entitlement will rank equally with the entitlement of the holders of any other preference shares or preferred securities, if any, of the Company ranking pari passu with the preferred securities as regards participation in the assets of the Company.

Notwithstanding the availability of sufficient assets of the Company to pay any liquidation distribution to the holders of the preferred securities, if at the time such liquidation distribution is to be paid, proceedings are pending or have been commenced for the voluntary or involuntary liquidation, dissolution or winding-up of RBI, the liquidation distribution paid to holders of the preferred securities and the liquidation distribution per share paid to the holders of all asset parity securities, shall not exceed the amount per share that would have been paid as the liquidation distribution from the assets of RBI (after payment in full in accordance with Austrian law of all creditors of RBI, including holders of its subordinated debt but excluding holders of any liability expressed to rank pari passu with or junior to RBI's obligations under the 'Support Agreement') had the preferred securities and all asset parity securities been issued by RBI and ranked (i) junior to all liabilities of RBI (other than any liability expressed to rank pari passu with or junior to RBI's obligations under the 'Support Agreement'), (ii) pari passu with all asset parity securities of RBI and (iii) senior to RBI's Bank Share Capital.

If the liquidation distribution and any other such liquidation distributions cannot be made in full by reason of the limitation described above, such amounts will be payable pro rata in the proportion that the amount available for payment bears to the full amount that would have been payable but for such limitation. After payment of the liquidation distribution, as adjusted if applicable, the holders will have no right or claim to any of the remaining assets of the Company or RBI.

In the event of liquidation, dissolution or winding-up of RBI, the board of directors shall convene an extraordinary general meeting of the Company for the purpose of proposing a special resolution to place the Company into voluntary winding-up and the amount per share to which holders shall be entitled as a liquidation distribution will be as described above.

RZB Finance (Jersey) II Limited

Notes to the financial statements

For the period ended 30 June 2013

10 Financial instruments

10.1 Financial risk management

10.1.1 Overview

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

Further quantitative disclosures which are included throughout these financial statements should be read in the context of the narrative disclosures in this section to better understand the Company's risk arising from those financial instruments.

10.1.2 Risk management framework

The Board of Directors ('Board') has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's Board is responsible for identifying and analysing the risks faced by the Company, for setting appropriate risk limits and controls, and for monitoring risks and adherence to limits.

The Company was set up to raise finance for the group (of which Raiffeisen-Landesbanken-Holding GmbH is the ultimate parent). This was achieved by the issue of a financial instrument listed on the Luxembourg Stock Exchange, the proceeds of which were used to invest in a financial instrument issued by Raiffeisen Bank International AG ('RBI'). No other similar transactions were carried out by the Company and therefore the operations for the period consisted in servicing the financial liability from the income generated by the financial asset. In addition, the Company incurred minimal administrative expenses. As a result, the Board deems its sole involvement as sufficient to monitor the risks faced by the Company and need not delegate any specific duties to Board committees.

10.2 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's loans and receivables.

10.2.1 Loans

The Company's main financial asset consist of an Undated Securitised Commercial Certificate of Obligation (see note 5) issued by Raiffeisen Bank International AG ('RBI'), formerly Raiffeisen Zentralbank Osterreich AG, and its corresponding interest receivable at period-end (see note 6). The Company's revenue derives mainly from this financial asset.

RZB Finance (Jersey) II Limited

Notes to the financial statements

For the period ended 30 June 2013

10 Financial instruments (continued)

10.2 Credit risk (continued)

10.2.1 Loans (continued)

On 29 July 2003, the Company entered into an agreement with RBI ('the Support Agreement') whereby RBI agrees to make available to the Company funds sufficient to enable it to meet its obligations should it have insufficient funds.

The Board monitors the credit risk continuously based on external ratings of RBI.

No triggers of impairment were identified on the loan receivable, with interest continuing to be received in accordance with the terms of the loan. The debtor has a long term credit rating of A negative outlook from Standard & Poor's. Given this rating, the Board does not expect the counterparty to fail to meet its obligations. At the end of the period, the Company did not have any passed due or impaired receivables.

The Company's maximum exposure to credit risk is equal to the amount of assets shown in the statement of financial position.

10.2.2 Guarantees

The Company does not provide any financial guarantees.

10.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's main financial liability consists of the Perpetual Preferred Securities which have maturity dates concurrent to that of the main financial asset. Thus, the most significant cash outflow consists of the payment of interest expense on these securities. The timing of its cash outflows falls due on the same dates of the cash inflows from the loan receivable.

Therefore, due to the nature of the Company's operations, the Board considers liquidity risk faced by the Company as minimal.

RZB Finance (Jersey) II Limited

Notes to the financial statements

For the period ended 30 June 2013

10 Financial instruments (continued)

10.4 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Due to the structure of the Company's assets and liabilities, particularly the back to back terms and conditions (notwithstanding the interest margin) of the principal financial asset and liability, the net exposure to market risk is also considered to be minimal.

10.4.1 Currency risk

The Company is exposed to foreign currency risk on certain administrative expenses, which are denominated in Pound Sterling (GBP). All other transactions are undertaken in Euro. The Company accepts this risk and, accordingly, does not hedge against it. A 10 percent weakening or strengthening of the Euro against the GBP would have an insignificant effect on the results and equity of the Company.

10.4.2 Interest rate risk

Interest incurred on the perpetual preferred securities is on a fixed rate basis whilst the amount receivable on the loan to Raiffeisen Bank International AG ("RBI") yields a fixed margin over this rate by 5 basis points, set in order to cover administration expenses of the Company. For this reason, and as these financial instruments are carried at amortised cost, a change in interest rates would therefore have no net impact on the Company's results and equity.

The interest rate on the financial asset is fixed till 31 July 2013, following which the interest rate will become floating at a fixed percentage over EURIBOR. The 5 basis points margin will remain unchanged.

10.5 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with a company's processes and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Company's operations.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company's reputation with overall cost effectiveness. The Board manages the operational risk of the Company through regular Board meetings and monitoring of compliance with the Offering Circular.

10.6 Capital management

The Company's assets and liabilities and the relative underlying terms and conditions allow for a highly probable annual margin that increases equity. The Board's policy is to have a sound capital base so as to maintain investor, creditor and market confidence and to sustain future

RZB Finance (Jersey) II Limited

development of the business. As the level of net interest income was established on incorporation of the Company, there is little need for the monitoring of the return on capital. The Board of Directors monitors the level of dividends to ordinary shareholders.

All ordinary shares are held by Raiffeisen Malta Bank plc and the Company does not have any share option schemes or hold its own shares.

There were no changes in the Company's approach to capital management during the period.

The Company is not subject to externally imposed capital requirements.

10.7 Fair values

The fair values of the Company's financial assets and liabilities are as follows:

| | Carrying Amount 30/06/2013 | Carrying Amount 31/12/2012 | Fair Value 30/06/2013 | Fair Value 31/12/2012 |

The respective financial assets and liabilities are categorised as Level 2 (2012: Level 2) in the fair value hierarchy.

Level 2 shall construe to mean that the fair value inputs are based on valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

The financial liability represents preferred securities that were issued at par and listed on the Luxembourg Stock Exchange. At the financial reporting date the preferred securities are being quoted at 73 (2012: 72) on the basis of a dealer quote. In view that the market for this instrument is not active, the directors obtained dealer's quote determined on an asset swap spread of +3409 (2012: +5387.7) based on an instrument issued by RBI, that is substantially the same.

In view of the fact that the company's financial assets mirror the same terms and conditions of the financial liabilities (with the exception of a 5 basis point difference in the coupon rate) and

10.7 Fair values (continued)

having regard to the difference between the bid/offer price, the directors are of the opinion that the fair value of the financial asset is not materially different from that of the financial liability.

In the opinion of the directors the difference between the carrying value of the long-term loan receivable and its fair value as at reporting date does not represent an impairment of value, based on the high credit rating of RBI.

In the opinion of the directors there is no material difference between the carrying values of the Company's other financial assets and liabilities and their fair values.
