Directors’ Report

For the Year Ended 31 December 2012

The directors submit their report and the financial statements of RZB Finance (Jersey) II Limited (‘the Company’) for the year ended 31 December 2012.

Incorporation

The Company was incorporated in Jersey, Channel Islands on 22 July 2003.

Activities

The principal activity of the Company is raising finance for other group companies.

Results and Business review

The results for the year are shown in the Statement of Comprehensive Income on page 6. During the year, a portion of the perpetual preferred securities were bought back and cancelled.

No new developments are expected during 2013.

The Company's principal risks and uncertainties arising from the financial instruments it holds are disclosed in detail in note 12. Other than those mentioned in this note, the Company's exposure to other risks is minimal.

Directors

The directors of the Company during the year were as stated on page 1.

Dividends

During the year, the Company paid an interim ordinary dividend of €25,000 (2011: €25,000). No final dividend is proposed for distribution.

Independent auditors

KPMG Channel Islands Limited, as auditors of the Company, have expressed their willingness to continue in office.

Statement of Directors’ Responsibilities

The directors are responsible for preparing the financial statements in accordance with applicable law and International Financial Reporting Standards (‘IFRS’) as issued by the IASB and as adopted by the European Union (‘EU’).

Company law requires the directors to prepare financial statements for each financial period which give a true and fair view of the state of affairs of the company as at the end of the financial period and of the profit or loss of the Company for that year. In preparing these financial statements the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In respect of the EU Transparency directive 2004/109/EC, the directors confirm, to the best of their knowledge, that the financial statements for the year ended 31 December 2012 give a true and fair view of assets, liabilities, financial position and profit of the Company as required by IFRS as adopted by the EU and that the Directors’ Report gives a true and fair view of important events that have occurred during the year and their impact on the financial statements. The principal risks and uncertainties faced by the Company are disclosed in note 12 of these financial statements.

Signed on behalf of the Board of Directors:

RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

1 Reporting entity

RZB Finance (Jersey) II Limited (the “Company”) is a public company domiciled in Jersey. The address of the Company’s registered office is noted on page 1. The Company’s activities consist in raising finance for other group companies (note 15).

2 Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and as adopted by the EU.

2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis.

2.3 Functional and presentation currency

These financial statements are presented in Euro, which is the Company’s functional currency.

2.4 Use of estimates and judgements

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

In the opinion of the directors, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult to reach, subjective or complex to a degree which would warrant their description as significant and critical in terms of the requirements of IAS 1 Presentation of Financial Statements (revised) except as disclosed in note 12.7.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.
3 Significant accounting policies (continued)

3.1 Foreign currency transactions

Transactions in foreign currencies are translated to the Company’s functional currency at the exchange rate ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to functional currency at the foreign exchange rate ruling at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year. Foreign exchange differences arising on translation are recognised in profit or loss.

3.2 Financial instruments

3.2.1 Non-derivative financial assets

The Company initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a non-derivative financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company’s non-derivative financial assets consist of loans and receivables and cash and cash equivalents.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise long-term loan receivable, other receivables and cash and cash equivalents.

Cash and cash equivalents

Cash and cash equivalents comprise call deposits.
3 Significant accounting policies (continued)

3.2 Financial instruments (continued)

3.2.2 Non-derivative financial liabilities

The Company initially recognises debt securities issued on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company has the following non-derivative financial liabilities: perpetual preferred securities and other payables.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

3.2.3 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

3.3 Impairment

3.3.1 Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, the disappearance of an active market for a security.

The Company considers evidence of impairment for loans and other receivables.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.
RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

3 Significant accounting policies (continued)

3.4 Dividends

Dividends are recognised as a liability in the period in which these are declared.

3.5 Interest income

Interest income is accounted for on an accruals basis using the effective interest method.

3.6 Interest expense

Interest expense on perpetual preferred securities is accounted for on an accruals basis using the effective interest method.

3.7 Taxation

The Company is liable to Jersey income tax at 0%.

3.8 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. The Directors perform regular reviews of the operating results of the Company and make decisions using financial information at the entity level only. Accordingly, the Directors believe that the Company has only one reportable operating segment.

The Directors are responsible for ensuring that the Company carries out business activities in line with the transaction documents. They may delegate some or all of the day-to-day management of the business to other parties both internal and external to the Company, including the decisions to purchase and sell securities. The decisions of such parties are reviewed on a regular basis to ensure compliance with the policies and legal responsibilities of the Directors. Therefore the Directors retain full responsibility as to the major allocation decisions of the Company.

4 New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations, which have been adopted by the EU, are effective for annual periods beginning after 1 January 2012 and have not been applied in preparing these financial statements due to the fact that they are not yet obligatory implemented. IFRS 9 Financial Instruments has not yet been adopted by the EU. Those which may be relevant to the Company are set out below. The Company does not plan to adopt these standards early.

IFRS 9 (2009) introduces new requirements for the classification and measurement of financial assets. IFRS 9 (2010) introduces additions relating to financial liabilities. The IASB currently has an active project to make limited amendments to the classification and measurement requirements of IFRS 9 and add new requirements to address the impairment of financial assets and hedge accounting.
4 New standards and interpretations not yet adopted (continued)

The IFRS 9 (2009) requirements represent a significant change from the existing requirements in IAS 39 in respect of financial assets. The standard contains two primary measurement categories for financial assets: amortised cost and fair value. A financial asset would be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, and the asset’s contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding. All other financial assets would be measured at fair value. The standard eliminates the existing IAS 39 categories of held to maturity, available-for-sale and loans and receivables. For an investment in an equity instrument which is not held for trading, the standard permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognised in other comprehensive income would ever be reclassified to profit or loss at a later date. However, dividends on such investments are recognised in profit or loss, rather than other comprehensive income unless they clearly represent a partial recovery of the cost of the investment. Investments in equity instruments in respect of which an entity does not elect to present fair value changes in other comprehensive income would be measured at fair value with changes in fair value recognised in profit or loss.

The standard requires that derivatives embedded in contracts with a host that is a financial asset within the scope of the standard are not separated; instead the hybrid financial instrument is assessed in its entirety as to whether it should be measured at amortised cost or fair value.

IFRS 9 (2010) introduces a new requirement in respect of financial liabilities designated under the fair value option to generally present fair value changes that are attributable to the liability’s credit risk in other comprehensive income rather than in profit or loss. Apart from this change, IFRS 9 (2010) largely carries forward without substantive amendment the guidance on classification and measurement of financial liabilities from IAS 39.

IFRS 9 is effective for annual periods beginning on or after 1 January 2015 with early adoption permitted. The IASB decided to consider making limited amendments to IFRS 9 to address practice and other issues.

Based on our initial assessment, the Company is not expecting a significant impact from the amendments of IFRS 9.

Amendments to IFRS 7 and IAS 32 on offsetting financial assets and financial liabilities (2011)

Disclosures – Offsetting Financial Assets and Financial Liabilities (amendments to IFRS 7) introduces disclosures about the impact of netting arrangements on an entity’s financial position. The amendments are effective for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods. Based on the new disclosure requirements the Company will have to provide information about what amounts have been offset in the statement of financial position and the nature and extent of rights of set-off under master netting arrangements or similar arrangements.
RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

4 New standards and interpretations not yet adopted (continued)

Amendments to IFRS 7 and IAS 32 on offsetting financial assets and financial liabilities (2011) (continued)

*Offsetting Financial Assets and Financial Liabilities* (amendments to IAS 32) clarify the offsetting criteria in IAS 32 by explaining when an entity currently has a legally enforceable right to set-off and when gross settlement is equivalent to net settlement. The amendments are effective for annual periods beginning on or after 1 January 2014 and interim periods within those annual periods. Earlier application is permitted.

Based on our initial assessment, the Company is not expecting a significant impact from the adoption of the amendments to IAS 32 and IFRS 7

IFRS 13 Fair Value Measurement (2011)

IFRS 13 provides a single source of guidance on how fair value is measured, and replaces the fair value measurement guidance that is currently dispersed throughout IFRS. Subject to limited exceptions, IFRS 13 is applied when fair value measurements or disclosures are required or permitted by other IFRSs. The Company is currently reviewing its methodologies for determining fair values (see Note 5). Although many of the IFRS 13 disclosure requirements regarding financial assets and financial liabilities are already required, the adoption of IFRS 13 will require the Company to provide additional disclosures. These include fair value hierarchy disclosures for non-financial assets/liabilities and disclosures on fair value measurements that are categorised in Level 3.

IFRS 13 is effective for annual periods beginning on or after 1 January 2013 with early adoption permitted.

The Company's long-term loan receivable consist of a €44,527,000 (2011: EUR100,000,000), Undated Securitised Commercial Certificates of Obligation issued by a related party, Raiffeisen Bank International AG ('RBI'), and subscribed in full by the Company on issuance at par.

The certificate may be redeemed at the option of the borrower on an interest payment date on or after 31 July 2013 at par in accordance with the conditions of issuance of the securitised commercial certificate of obligation. The claim of the Company shall be subordinated in accordance with Section 45 (4) of the Austrian Banking Act.

Interest is receivable from (and including) 31 July 2003 to (but excluding) 31 July 2013, annually in arrears on 31 July, in each year commencing on 31 July 2004, at a fixed rate per annum of 5.945%, and from (and including) 31 July 2013 at a rate of 2.75% per annum above the euro-zone interbank offered rate for three-month euro deposits (EURIBOR) payable quarterly in arrears on 31 October, 31 January, 30 April and 31 July in each year, commencing on 31 October 2013.

On 22 November 2012 the Company entered into a Purchase and Cancellation Agreement with RBI, the agreement resulted in the purchase and cancellation of €55,473,000 Perpetual Non-cumulative Subordinated Floating Rate Preferred Securities (see note 10) from RBI at the notional amount plus any accrued interest. The consideration for the purchase was settled by way of discharge of Securitised commercial certificates issued by RBI and held by the company with the notional amount of €55,473,000, resulting in no gain or loss from the transaction. The acquisition and discharge became effective on 28 November 2012. Interest accrued up to the date of the discharge was paid to the Company. This transaction constitutes a non-cash transaction as agreed between the respective parties.

Holders of perpetual non-cumulative preferred securities receive interest which will be payable from (and including) 31 July 2003 to (but excluding) 31 July 2013, annually in arrears on 31 July, in each year commencing on 31 July 2004, at a fixed rate per annum of 5.895%, and from (and including) 31 July 2013 at a rate of 2.70% per annum above the Euro-zone interbank offered rate for three-month euro deposits (EURIBOR) payable in arrears on 31 October, 31 January, 30 April and 31 July in each year, commencing on 31 October 2013. The preferred securities do not carry the right to vote unless the interest is in arrears.

The interest is non discretionary and payment thereof is subject to the conditions included in Clause (a) of the Offering Circular. The Company opted to repurchase the perpetual preferred securities and duly cancel the long-term loan receivable as a result of the intermediate parent’s strategy to reduce its risk exposure given the current weak economic conditions.

The preferred securities are redeemable at the option of the Company, subject to law and to the prior consent of RBI which shall grant such consent only after either replacement of the principal amount of the preferred securities so redeemed by the issue of other capital of at least equivalent quality or having applied for and been granted consent by the Austrian Financial Market Supervisory Authority (the ‘Finanzmarktaufsichtsbehörde’ or ‘FMA’)), in whole but not in part, at €100 per preferred security plus accrued and unpaid interest for the then current interest period on 31 July 2013 or any dividend date falling thereafter and, subject as described in Preferred Securities”.

On 23 February 2012, RBI invited the holders of perpetual non-cumulative preferred securities with a denomination of €100 each, issued by the Company, to tender the preferred securities to RBI for purchase at a fixed purchase price plus any accrued and unpaid dividends. On 8 March 2012, it was announced that RBI had received acceptances from note holders of 553,736 preferred securities. In addition RBI purchased 996 preferred securities in the market. On 22 November 2012 the Company entered into a Purchase and Cancellation Agreement with RBI. It was agreed by the directors, that the Company would cancel the preferred securities on receipt of the preferred securities purchased by RBI. In exchange for the return of the certificates the Company agreed to discharge the obligation of RBI relating to the Securitised commercial certificates for the notional amount of €55,473,000, resulting in no gain or loss from the transaction. The transaction for the cancellation of the above securities was settled on 28 November 2012. Interest accrued on the purchased preferred securities up to the date of the
10 Perpetual preferred securities (continued)

cancellation was paid to RBI on the settlement date for the amount of €1,072,175. This transaction constitutes a non-cash transaction as agreed between the respective parties.

In the event of any voluntary or involuntary liquidation, dissolution or winding-up of the Company, the holders of the preferred securities will be entitled to receive for each preferred security a liquidation preference of €100 plus accrued and unpaid interest for the then current interest period to the date of payment. Such entitlement will arise before any distribution of assets is made to holders of ordinary shares, preference shares or preferred securities or any other class of shares of the company or any other share or other security issued by the Company and having the benefit of a guarantee from RBI ranking junior as regards participation in assets to the preferred securities, but such entitlement will rank equally with the entitlement of the holders of any other shares or securities, if any, of the company ranking pari passu with the preferred securities as regards participation in the assets of the Company.

Notwithstanding the availability of sufficient assets of the Company to pay any liquidation distribution to the holders of the preferred securities, if at the time such liquidation distribution is to be paid, proceedings are pending or have been commenced for the voluntary or involuntary liquidation, dissolution or winding-up of RBI, the liquidation distribution paid to holders of the preferred securities and the liquidation distribution per share paid to the holders of all asset parity securities, shall not exceed the amount per share that would have been paid as the liquidation distribution from the assets of RBI (after payment in full in accordance with Austrian law of all creditors of RBI, including holders of its subordinated debt but excluding holders of any liability expressed to rank pari passu with or junior to RBI’s obligations under the ‘Support Agreement’) had the preferred securities and all asset parity securities been issued by RBI and ranked (i) junior to all liabilities of RBI (other than any liability expressed to rank pari passu with or junior to RBI’s obligations under the ‘Support Agreement’), (ii) pari passu with all asset parity securities of RBI and (iii) senior to RBI’s Bank Share Capital.

If the liquidation distribution and any other such liquidation distributions cannot be made in full by reason of the limitation described above, such amounts will be payable pro rata in the proportion that the amount available for payment bears to the full amount that would have been payable but for such limitation. After payment of the liquidation distribution, as adjusted if applicable, the holders will have no right or claim to any of the remaining assets of the Company or RBI.

In the event of liquidation, dissolution or winding-up of RBI, the board of directors shall convene an extraordinary general meeting of the Company for the purpose of proposing a special resolution to place the Company into voluntary winding-up and the amount per share to which holders shall be entitled as a liquidation distribution will be as described above.

The accrued interest payable relates to the perpetual preferred securities (note 10).

12 Financial instruments

12.1 Financial risk management

12.1.1 Overview

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk

This note presents information about the Company’s exposure to each of the above risks, the Company’s objectives, policies and processes for measuring and managing risk, and the Company’s management of capital.

The quantitative disclosures in notes 7 and 10 on the financial instruments should be read in the context of the narrative disclosures in this section to better understand the Company’s risk arising from those financial instruments.

12.1.2 Risk management framework

The Board of Directors (‘Board’) has overall responsibility for the establishment and oversight of the Company’s risk management framework.

The Company’s Board is responsible for identifying and analysing the risks faced by the Company, for setting appropriate risk limits and controls, and for monitoring risks and adherence to limits.

The Company was set up to raise finance for the group (of which Raiffeisen-Landesbanken-Holding GmbH is the ultimate parent). This was achieved by the issue of a financial instrument listed on the Luxembourg Stock Exchange, the proceeds of which were used to invest in a financial instrument issued by Raiffeisen Bank International AG (‘RBI’). No other similar transactions were carried out by the Company and therefore the operations for the year consisted in servicing the financial liability from the income generated by the financial asset. In addition, the Company incurred minimal administrative expenses. As a result, the Board deems its sole involvement as
12 Financial instruments (continued)

12.1 Financial risk management (continued)

12.1.2 Risk management framework (continued)

sufficient to monitor the risks faced by the Company and need not delegate any specific duties to board committees.

12.2 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company’s loans and receivables.

12.2.1 Loans

The Company’s main financial asset consist of an Undated Securitised Commercial Certificate of Obligation (see note 7) issued by Raiffeisen Bank International AG (‘RBI’), formerly Raiffeisen Zentralbank Österreich AG, and its corresponding interest receivable at year-end (see note 8). The Company’s revenue derives mainly from this financial asset.

On 29 July 2003, the Company entered into an agreement with RBI (‘the Support Agreement’) whereby RBI agrees to make available to the Company funds sufficient to enable it to meet its obligations should it have insufficient funds.

The Board monitors the credit risk continuously based on external ratings of RBI.

No triggers of impairment were identified on the loan receivable, with interest continuing to be received in accordance with the terms of the loan. The debtor has a long term credit rating of A negative outlook from Standard & Poor’s. Given this rating, the Board does not expect the counterparty to fail to meet its obligations. At year end, the Company did not have any passed due or impaired receivables.

The Company’s maximum exposure to credit risk is equal to the amount of assets shown in the statement of financial position.

12.2.2 Guarantees

The Company does not provide any financial guarantees.
RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

12  Financial instruments (continued)

12.3  Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company’s approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company’s reputation.

The Company’s main financial liability consists of the Perpetual Preferred Securities which have maturity dates concurrent to that of the main financial asset. Thus, the most significant cash outflow consists of the payment of interest expense on these securities. The timing of its cash outflows falls due on the same dates of the cash inflows from the loan receivable.

Furthermore, other liabilities, which are payable within one year, are not significant. The Board considers its available cash resources as enough to meet these cash outflows which mainly consist of administrative expenses.

Therefore, due to the nature of the Company’s operations, the Board considers liquidity risk faced by the Company as minimal.

12.4  Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company’s income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Due to the structure of the Company’s assets and liabilities, particularly the back to back terms and conditions (notwithstanding the interest margin) of the principal financial asset and liability, the net exposure to market risk is also considered to be minimal.

12.4.1  Currency risk

The Company is exposed to foreign currency risk on certain administrative expenses, which are denominated in Pound Sterling (GBP). All other transactions are undertaken in Euro.

The Company accepts this risk and, accordingly, does not hedge against it. A 10 percent weakening or strengthening of the Euro against the GBP would have an insignificant effect on the results and equity of the Company.

12.4.2  Interest rate risk

Interest incurred on the Perpetual Preferred Securities is on a fixed rate basis whilst the amount receivable on the loan to Raiffeisen Bank International AG yields a fixed margin over this rate by 5 basis points, in order to cover administration expenses of the Company. For this reason, and as these financial instruments are carried at amortised cost, a change in interest rates would therefore have no net impact on the Company’s results and equity.
RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

12 Financial instruments (continued)

12.4.2 Interest rate risk (continued)

The interest rate on the financial asset is fixed until 31 July 2013, following which the interest rate will become floating at a fixed percentage over EURIBOR. The 5 basis points margin will remain unchanged.

12.5 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with a company’s processes and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Company’s operations.

The Company’s objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company’s reputation with overall cost effectiveness. The Board manages the operational risk of the Company through regular Board meetings and monitoring of compliance with the Offering Circular.

12.6 Capital management

The Company’s assets and liabilities and the relative underlying terms and conditions allow for a highly probable annual margin that increases equity. The Board’s policy is to have a sound capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. As the level of net interest income was established on incorporation of the Company, there is little need for the monitoring of the return on capital. The Board of Directors monitors the level of dividends to ordinary shareholders.

All ordinary shares are held by Raiffeisen Malta Bank plc and the Company does not have any share option schemes or hold its own shares.

There were no changes in the Company’s approach to capital management during the year.

The Company is not subject to externally imposed capital requirements.
12 Financial instruments (continued)

12.7 Fair values

The fair values of the Company’s financial assets and liabilities are as follows:

<table>
<thead>
<tr>
<th>Financial assets</th>
<th>Carrying amount 2012</th>
<th>Carrying amount 2011</th>
<th>Fair Value 2012</th>
<th>Fair Value 2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Long-term loan receivable</td>
<td>€</td>
<td>€</td>
<td>€</td>
<td>€</td>
</tr>
<tr>
<td>Financial liabilities</td>
<td>44,527,000</td>
<td>100,000,000</td>
<td>32,059,440</td>
<td>55,051,000</td>
</tr>
</tbody>
</table>

The respective financial assets and liabilities are categorised as Level 2 (2011: Level 2) in the fair value hierarchy.

Level 2 shall construe to mean that the fair value inputs are based on valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

The financial liability represents preferred securities that were issued at par and listed on the Luxembourg Stock Exchange. At the financial reporting date the preferred securities are being quoted at 72 (2011: 55) on the basis of a dealer quote.

In view of the fact that the Company’s financial asset mirrors the same terms and conditions of the financial liabilities (with the exception of a 5 basis point difference in the coupon rate) and having regard to the difference between the bid/offer price, the directors are of the opinion that the fair value of the financial asset is not materially different from that of the financial liability.

In the opinion of the directors the difference between the carrying value of the long-term loan receivable and its fair value as at 31 December 2012 does not represent an impairment of value, based on the high credit rating of RBI.

In the opinion of the directors there is no material difference between the carrying values of the Company’s other financial assets and liabilities and their fair values.
RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

13 Cash and cash equivalents

Balances of cash and cash equivalents as shown in the Statement of Financial Position are analysed below:

<table>
<thead>
<tr>
<th></th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Analysis of balances of cash and cash equivalents:</td>

</tr>
</tbody>
</table>

The call deposits amounting to €134,708 (2011: €128,912) were held with Raiffeisen Bank International AG. These bear interest at 0.05% per annum (2011: 0.25%).

14 Related parties

14.1 Identity of related parties

The Company has a related party relationship with its immediate parent company, intermediate parent company and ultimate parent company (see note 15).

The Company also has a related party relationship with its directors and company secretary.

Each of G.P. Essex-Cater, H. G. Grant and F.X.A. Chesnay is an employee of a subsidiary of State Street Corporation, affiliates of which provide ongoing administrative services to the Company at commercial rates.

14.2 Transactions with directors and company secretary

Directors of the Company are employees of an affiliate of the company secretary. During the year, the company secretary charged the Company management fees, administrative fees and other charges amounting to €12,586 (2011: €13,141).

14.3 Other transactions with related parties

Details of other transactions with the immediate parent company and intermediate parent company are disclosed in notes 5, 7, 8, 9 and 13.

Interest received amounting to €7,026,479 (2011: €5,945,334) is derived wholly from the Company's intermediate parent company. The amount received on cancellation of the perpetual preferred securities amounting to €1,081,269 is included in such figure. Moreover, interest paid amounting to €6,967,175 (2011: €5,895,000) includes interest paid to RBI amounting to €1,072,175 given its purchase of the preferred securities prior to the cancellation agreement.
RZB Finance (Jersey) II Limited

Notes to the Financial Statements

For the Year Ended 31 December 2012

15 Ultimate controlling party

Control of the company

The Company is a wholly-owned subsidiary of Raiffeisen Malta Bank plc, a company registered in Malta, the parent company of which is Raiffeisen Bank International AG (‘RBI’) The Company’s ultimate parent Company is Raiffeisen-Landesbanken Holding GmbH, a company registered in Austria.

16 Segment information

Geographical information

The Company is domiciled in Jersey, Channel Islands. All of the Company’s revenues are generated from its long term loan receivable with an entity based in Austria.

Non-current assets

Except for the long term loan receivable, the Company does not have any other non-current assets as at 31 December 2012 (2011: £nil).

Major investment counterparty

All of the Company’s long term loan receivable is held with one counterparty, Raiffeisen Bank International AG.

17 Effect of the current economic crisis

The Board acknowledges that in the current economic crisis, the situation of the Company and the risks that it faces could change rapidly. However, on the basis of the evidence available to them and outlined in notes 7, 10 and 12, they are satisfied that the Company is able to continue as a going concern for the foreseeable future.
Independent auditor’s report to the members of
RZB Finance (Jersey) II Limited

We have audited the financial statements of RZB Finance (Jersey) II Limited for the year ended 31 December 2012 which comprise Statement of Financial Position, the Statement of Changes in Equity, the Statement of Comprehensive Income, the Statement of Cash Flows and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards as adopted by the EU.

This report is made solely to the company’s members, as a body, in accordance with Article 113A of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the company’s members those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company’s members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Statement of Directors’ Responsibilities set out on page 3, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board’s Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company’s circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.
Independent auditor’s report to the members of
RZB Finance (Jersey) II Limited – continued

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company’s affairs as at 31 December 2012 and of its total comprehensive income for the year then ended;

- have been properly prepared in accordance with International Financial Reporting Standards as adopted by the EU; and

- have been prepared in accordance with the requirements of the Companies (Jersey) Law 1991.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies (Jersey) Law 1991 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the company; or

- the financial statements are not in agreement with the accounting records and returns; or

- we have not received all the information and explanations we require for our audit.

Steven Hunt
